

Acquisition of the M/V Camilla By Groupe Desgagnés

In 2003, Groupe Desgagnés acquired the M/V Camilla, a general cargo ship built in Germany in 1981. As the importation of a foreign vessel in Canada is considered a new ship, we supported Groupe Desgagnés through all of Transport Canada approval procedures. We also did the structural integration of a 40 tonnes crane to the ship's structure.

Principal Particulars

Length over all	130m	426.5ft
Length between perpendiculars	123m	403.5ft
Breadth moulded	20.6m	67.5ft
Depth	7.1m	23.3ft
Maximum deadweight.....	7000 t	6890 lt
Launched	1981
